ABOUT ME

With a varied experience of over 10+ years in exploring and building cool stuff, learning of new skills along with helping the organisations grow is a mastery that I have possessed over the years.

WORK EXPERIENCE

Present
Mar, 2021

Sr. Developer Relations Engineer
Google

I develop and maintain high-end features for the client libraries of many Google Cloud products like Storage, Spanner, Pub/Sub, BigQuery etc. These libraries are used by millions of developers around the world.

Jan, 2021
Jul, 2020

Software Engineer
Postman

Postman is a collaboration platform for API development. Postman's features simplify each step of building an API and streamline collaboration so you can create better APIs—faster.

Jul, 2020
Nov, 2017

Lead Web Developer
Taxback International

TBI is an Irish company. While the company takes care of VAT compliance/returns of some huge names in the industry, I am responsible to create solutions that make the product faster/more stable, thereby increasing the faith of the end user in the company.

Oct, 2017
Jul, 2016

CTO/Co-founder
Crazy Ripples

Co founded Crazy Ripples when the bug of startup bit me good. Worked as the technical head for all the products we consulted/co-owned.

Jul, 2016
Oct, 2015

CTO
servX

servX was an after sales automobile service startup which got selected for the 2017 Y-Combinator batch. My role was to architect everything there, from website to the apps to the live streaming platform we were building for the end users.

Oct, 2015
Apr, 2015

Web Team Lead
Codifier Technologies Pvt. Ltd.

Codifier Technologies is a service based startup and my role there was to architect the web solutions needed for the products that we delivered. From REST APIs to custom admin panels to simple blogs, I got my hands dirty everywhere.

Apr, 2015
Mar, 2014

Web Developer
Spiritnoise

Spiritnoise is a service based startups with a creative sense of design for all the products it tackles. I was hired as a Wordpress/Front-end developer but always pushed to try newer frameworks into the mix.

Mar, 2014
Jul, 2013

Web Developer
Markigence Pvt Ltd

Markigence is a service based startup delivering tech/content solutions and my job was to build the front-end solutions for the clients that we handled. I started in front-end but quickly started handling backend work as well.

🧪 PROJECTS TO NOTE

Zoho Mail Tracker *Link*

ZMT is an open source project currently working as a chrome extension. The purpose is to track when the emails sent to a recipient are read/opened. The extension is made only to work with the Zoho Mail email client(hence the name).

React | MobX | Laravel | Chrome Extension | Javascript | Zoho Mail | Open Source

Taxback VatConnect *Link*

VatConnect was a CRM/analytics tool for the corporate clients who wish to get a VAT reclaim on their expenses.

Laravel | Docker | PgSQL | ECS/ECR/EC2/RDS/SQS | ActiveMQ | Redis | SSO/oAuth

Crazy Ripples *Link*

The website was made during my tenure in Crazy Ripples, it's rich in smooth animations aimed at a pleasant experience for the end user.

jQuery | KuteJS | Animations | SVG

We Are Angry *Link*

The website is made using Core PHP on the server side and HTML/CSS/jQuery on the front end. The author wanted a digital experience that surpases what the user experiences in reading any ebook or document. This is why the website consists of many media elements and filled with smooth animations/transitions that are pleasing for the whole reading experience of the user.

jQuery | CSS | PHP

BlackSpear *Link*

BlackSpear is a one pager, responsive HTML template for media houses and corporates. It uses Twitter Bootstrap 4 grid layout. It was put on themeforest for general user and I intend to make it open source soon.

Bootstrap 4 | jQuery | CSS | SVG

Delhi Angels *Link*

DelhiAngels is a member led organization committed to finding, funding and mentoring great young companies from pitches through a successful exits. This was a pro-bono contribution to the community of startups in Delhi.

jQuery | Greensock | Animations

Baromeeter *Link*

Baromeeter is an online restaurant and deals discovery platform. With a strong online presence and the latest 1 Rs. deals, they are doing really well.

Laravel | jQuery | CSS | Flexbox | SVG
